Land acknowledgment

I would like to acknowledge the land on which I am privileged to work, live and recreate on is the traditional territory of the Malahat people.

Agenda

Apple Updates

Google Updates

Presentation: ASA (Automated Spatial Advisory) Go app by Brett Edwards

Updates

Apple Updates - Fee waiver program

- Our Apple Developer account was accepted into the [fee waiver program](#)!
- We no longer pay the \$99 (USD) annual membership fee
- But the larger cost saving is the people time saved on submitting and approving the payment

Apple Updates - Fee waiver program

- Our renewal date is now September instead of April
- It will auto renew on September 3, 2027
- The fee waiver program does NOT apply to the Apple Enterprise program

Apple Updates – Certificate Updates

- The Apple Developer distribution certificate expires on **November 6th**
- Affected apps:
 - Apple Developer program (public) apps built with a GitHub workflow
- Not affected apps:
 - Apple Developer program (public) apps built with Xcode's "automatically manage signing"
 - Apple Enterprise program apps

Apple Updates – Certificate Updates

- Developer Experience Team will do the following on **November 5th**:
 - Create a new certificate
 - Update existing provisioning profiles to use the new certificate
 - Update GitHub organizational secrets with the new certificate and password
 - Inform community when updates are completed

Apple Updates – Certificate Updates

- What you need to do (on or after Nov 5th):
 - Download updated provisioning profile from <https://developer.apple.com>
 - Update your repo's GitHub secret with the updated provisioning profile
 - The [Mobile Developer Guide describes](#) how to do this
- Update exportOptions.plist if needed

Apple Updates – Certificate Updates

- Contact the Developer Experience Team if the November 5th update impacts a critical release

Google Updates – Quality requirements

- Google Play is introducing two new quality requirements:
 - Reducing app memory usage
 - Improving device migration

Google Updates – Quality requirements

- Reducing app memory usage
 - **Starting Feb 2027**
 - apps and games must meet their respective:
 - [bad behavior thresholds](#)
 - [DEX code optimization](#)

Google Updates – Quality requirements

- Improving device migration
 - **Starting April 2027**
 - apps required to meet the [Zero Tap Sign-In](#)
- Refer to [Android Developers Blog post](#) for more details
